

♡ Dear Mogg,

I have thoroughly enjoyed being taught at Dallington for eight years in September. I strongly advise every child which is around half way through that they should stay until Mogg's group because it is great. Luckily, from the very beginning in nursery to the end, I have never wanted to leave. Once in Mogg's group, since it is the end of the school, you feel sad but feel it is the best year group in the school.

When in Lower or Upper nursery, you look at the 'older children' who feel grand to you and think, wow. When you do get to the end you feel how quickly you have proceeded through the school. It is quite frightening.

Now in the subject of art, it has probably improved a lot when I received a lot of help from you and Fabian. It has improved my drawing skills to a large amount.

I will miss you so much but will obviously come back soon!

Love, Pally xxx
